

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The A. O. U. then passed resolutions thanking the Cooper Club, the Academy of Sciences and the Committee on Arrangements, after which the meeting adjourned. In a special meeting the Cooper Club passed resolutions of thanks to the Academy and Mr. Loomis, for the generous entertainment extended to members of the Club.

After luncheon, on the invitation of President Jordan, the meeting visited Stanford University in a body.

The following members of the A. O. U. from the east were in attendance; J. A. Allen, F. E. L. Beal, Louis B. Bishop, H. C. Bumpus, F. M. Chapman, J. L. Childs, Mrs. E. B. Davenport, J. Dwight, Jr., J. H. Fleming, Louis A. Fuertes, C. Hart Merriam, T. S. Palmer, Otto Widmann. Of the Cooper Club there were thirty-three members present.

DR. EDGAR A. MEARNS

WE take pleasure in resuming our series of portraits with that of Dr. Edgar A. Mearns, U. S. A. Dr. Mearns is well known to westerners thru his connection with the Mexican Boundary Survey, and by his numerous articles on western ornithology and mammalogy. The Doctor began his bird studies in the east, but has worked pretty much over the far west, in line of duty, particularly in the arid regions of the southwest, adjacent to our National Boundary. Dr. Mearns' first paper was on *The Birds of the Hudson Highlands*, published in the *Bulletin of the Essex Institute* (1878-79). The greater number of his later articles have appeared in *The Auk* and in the *Proceedings of the U. S. National Museum*.
